Longevity Science Singapore Conference
7 September 2022 | 9AM – 5PM
NUHS Tower Block Auditorium

The NUHS Centre for Healthy Longevity is commemorating the opening of the centre with the inaugural Longevity Science Singapore Conference. Hear from the world’s leading international and local experts on healthy longevity as they convene in Singapore. This full-day medical scientific conference is catered for healthcare and academic professionals to learn about the latest strategies, discoveries and implementation of longevity interventions to improve individuals’ healthspan and population health.

About the Conference

The NUHS Centre for Healthy Longevity (CHL) is one of a few worldwide, where pre-clinical and clinical research are tightly integrated to generate and translate findings from laboratory models to first-in-use for humans. The Centre is spearheading three research initiatives which are being generously supported by the Lien Foundation with a gift of $5 million under its Hacking Ageing Initiative at the NUS Yong Loo Lin School of Medicine.

About NUHS Centre for Healthy Longevity

The conference promises an exciting line-up of Healthy Longevity topics, including panel discussions with Prof Chong Yap Seng, Dean, NUS Yong Loo Lin School of Medicine; A/Prof Jason Phua, CEO, Alexandra Hospital; Prof Koh Woon Puay, Asst Dean for Faculty Development, NUS Yong Loo Lin School of Medicine; Prof Roger Foo, Asst Dean for Research, NUS Yong Loo Lin School of Medicine; and Dr Wong Meng Cheong, Director, Investments, Wong Yip Chong Family Office. Please stay tuned for more information in our next announcement!

Register now:
Physical attendance at NUHS Tower Block Auditorium
Virtual attendance via Zoom

Guest speakers:

Prof Nir Barzilai
Professor, Department of Medicine and Genetics, Director, Institute for Aging Research, Albert Einstein College of Medicine

Prof Evelyne Bischof
Longevity Physician at Human Longevity, Chief Associate Physician, Renji Hospital of Jiaotong University School of Medicine

Prof Heinrich Jasper
Principal Fellow & Director, Immunology Discovery, Genentech Inc.

Prof James L. Kirkland
Director, Robert and Arlene Kogod Center on Aging, Mayo Clinic

Prof Matt Kaeberlein
Professor & Director, Healthy Aging and Longevity Research Institute, Director, Nathan Shock Center of Excellence in the Basic Biology of Aging, Co-director, Biological Mechanisms of Healthy Aging Training Program, Co-director, Dog Aging Project

Prof Thomas Rando
Professor of Neurology and Neurological Sciences, Director, Eli and Edythe Broad Center of Regenerative Medicine and Stem Cell Research, University of California, Los Angeles

Dr Felipe Sierra
Chief Scientific Officer, Hevolution Foundation

Conference co-hosts:

Prof Andrea Maier
Dan Chiew Seng Professor in Medicine, Healthy Ageing and Dementia Research, Director, Centre for Healthy Longevity (CHL), NUHS

Prof Brian Kennedy
Distinguished Professor, Director, Centre for Healthy Longevity (CHL), NUHS
